

Tribhuvan University
Faculty of Humanities and Social Sciences
Bachelor in Computer Application

Mahendra Multiple Campus Nepalgunj

First Terminal Examination

2026 (2083 BS)

Course Title: Introduction to Management

Code No: CAMG304

Semester: V

Full Marks:40

Pass Marks:16

Time:2 hours

Candidates are required to answer the questions in their own words as far as possible.

Group B

Attempt any four questions.

[4×5=20]

2. Define management and explain its importance.
3. Explain the types of managers with examples.
4. Describe the steps in the planning process.
5. What is SWOT analysis? Explain briefly.
6. Differentiate between a job description and a job specification.

Group C

(Attempt any ONE questions)

7. Explain the management process in detail with examples.
8. Discuss the nature and process of decision-making in an organization.
9. Explain the elements of organizing and forms of organizational design.

Tribhuvan University
Mahendra Multiple Campus
Bachelor of Computer Applications (BCA)
First Term Examination

Year / Semester: Second / V

Subject: MIS and E-business (CACS301)

Time: 2 Hrs. (Group A, 20 Minutes and Group B & C, 1:40 Hrs.)

FM: 40

Group – B

Attempt any Four questions.

[4 × 5 = 20]

1. Briefly define ERP (Enterprise Resource Planning) and its benefits to a business.
2. Explain M-commerce in detail. Write down its benefits.
3. Write about ADSL and 3G technology.
4. Write down the benefits of intranet and extranet to business.
5. Write about
 - a. Pure Versus Partial EC
 - b. Outsourcing and offshoring

Group – C

Attempt any two questions.

[1 × 10 = 10]

6. Define IS. Write about different types of IS.
7. What is E-commerce? Explain about the EC framework in detail.

Best of Luck.

First Terminal Examination
2026 (2083 BS)

Course Title: Computer Networking
Code No: CACS303
Semester: V

Full Marks: 40
Pass Marks: 16
Time: 2 hours

Candidates are required to answer the questions in their own words as far as possible.

Group B

Attempt any four questions:

[4×5=20]

2. Define computer network and explain its uses.
3. Differentiate between guided and unguided transmission media.
4. Explain the functions of the network layer in detail.
5. Describe DNS and DHCP protocols with working principles.
6. Explain firewalls and their types.

Group C

Attempt any one question:

[1×10=10]

7. An organization is granted the block 192.168.1.10 /25.
 - a. Find the subnet mask.
 - b. Find the number of addresses in each subnet.
 - c. Find the first and last addresses in subnet 1.
 - d. Find the first and last addresses in subnet 1024.
8. Explain the RSA algorithm with steps.

Best of Luck

First Terminal Examination
2026 (2082 BS)

Course Title: Computer Graphics

Code No: CACSA301

Semester: Fifth

Full Marks: 40

Pass Marks: 16

Time: 2 hours

Candidates are required to answer the questions in their own words as far as possible.

GROUP-B

Attempt Any Four questions.

[4*5=20]

2. What is computer graphics? Explain different application areas of computer graphics.
3. How can you draw a circle using mid-point circle algorithm? Explain with the algorithm.
4. Digitize the line with endpoints (2,2) and (10,5) using Bresenham's line drawing algorithm.
5. Define horizontal and vertical retrace of beam. Explain the architecture of random scan display system.
6. Generate the points between the end points of the line viz.(2,2) and (9,6) by using DDA line drawing algorithm.

GROUP-C

Attempt any One questions.

[1*10=10]

7. Describe the scan conversion algorithms for Line, Circle, and Ellipse. Explain DDA and Bresenham's line drawing algorithms with Algorithm. Also explain the concept of area filling (rectangle and ellipse), circles, and ellipses.
8. Describe the hardware and software requirements for a computer graphics system including hard copy devices and display technologies.

Best of Luck

Pre-Board Examination

2026 (2083 BS)

Course Title: Dot Net Technology

Code No: CASC302

Semester: V

Full Marks:60

Pass Marks:24

Time:3 hours

Candidates are required to answer the questions in their own words as far as possible.

Group B

Attempt any four questions.

[4×5=20]

2. Define C# language. Explain any two features of C#.
3. What is a class and object in C#? Give a simple example.
4. What is a constructor? Explain its purpose with example.
5. Explain method overloading with example.
6. What is inheritance? Explain its advantages.

Group C

(Attempt any ONE questions)

7. What is Object-Oriented Programming (OOP) in the context of C#? Explain the pillars of OOP with examples in C# programming.
8. Describe the architecture of the .NET Framework. Explain the role of CLR and .NET Class Library. How does C# interact with CLR?
